

The Above and Beyond 'Thunder Clap'
Recognition for the Week of March 28th:

Aurora Wier

Hometown Pride:

"I am proud to be part of the Osseo Fairchild community because of how close and supportive everyone is. Everybody works together and helps each other to get things done. It is a small, close-knit community that has many events and activities for connecting. The OF community is all around a fun, kind and positive place."

Bleacher Report (activities):

Sports: Cross Country

Clubs: Above and Beyond, FFA, Science Olympiad, Quiz Bowl

Thunder Role:

"It is important to be a good role model because your actions will affect the younger generation. People will always look up to you and be influenced by what you do. If you lead with uprightness you will leave a good effect on those who follow your steps and they will one day be like you and lead others in a positive way."

Topic Thunder:

"It is important to stay away from drugs and alcohol because of how damaging it can be to not only your health, but your potential. Using drugs, alcohol or tobacco may change your attitude and ability to be a good role model. An athlete's performance and dedication to a sport may drastically decline. Using drugs and alcohol may cause you to make bad decisions without rational thinking. Staying away from drugs and alcohol is crucial, there are so many benefits and reasons that they should not be used."

Scouting Report (quotes from teachers):

"Aurora is an excellent musician and it's been a pleasure having her in the OFHS band. She works hard and through her leadership she sets a great example for those around her." – Mr. Boll

"Aurora is passionate about environmental issues. Those passions can be seen in her schoolwork as she investigates ways we can help change the world. I have no doubt that she'll do so." – Mrs. Beasley

Fan Deck (quotes from peers):

"Aurora is friendly and studious and is a good runner."

"Aurora is a good classmate!"

Hometown Hero:

"I chose Ms. Mosley to be my hometown hero because she is so kind and supportive. She works hard to help and be there for students in need. She is good at communicating her knowledge in the classroom. She has taught me many great skills and has had a positive effect on me. She may be a small person, but she has a large and caring heart. She will be greatly missed from the Osseo-Fairchild District."
