

The Above and Beyond 'Thunder Clap'
Recognition for the Week of December 4th:

Rayanne Walker

Hometown Pride: "I am proud to be a part of the Osseo-Fairchild community because everyone helps everyone. So many people in our community are kind and caring. I wouldn't have wanted to grow up in any other community."

Bleacher Report:

Sports: Basketball Clubs: Above and Beyond, FFA and NHS

Thunder Role:

"I feel that it is important for a student athlete/club member to be a good role model because we are the ones that the younger students are looking up to. If they see us doing the right things and making good choices, then hopefully they will also do the right things. It is also important for us to be good role models because the better choices we make, the better our grades in school and the better athletes we become."

Topic Thunder:

"I feel that it is important to stay away from drugs and alcohol because it is not the right choice to make. Drugs and alcohol affect not only you but also the people around you. There are much better things in life to occupy your time with than drugs and alcohol."

Scouting Report:

"Rayanne is a great student and friend to many. Her love for animals is second to none. She would have at least 100 dogs if she could. She has been an FFA officer for 2 years and she does lead by example and that is a trait that she carries with her outside of the classroom as well." – Mr. Boettcher

"I have enjoyed getting to know Rayanne over the years and having her in my classes." – Mr. Stoik

Fan Deck:

"Rayanne is respected, intelligent and involved."

"Rayanne is kind."

"Rayanne is a great student and works hard in basketball."

"Rayanne is very involved."

"Rayanne is always positive and fun to be with."

"Rayanne always is polite to students and teachers."

Hometown Hero:

"My hometown hero would have to be my grandma, Annamae Rud. She is always willing to do things for others. If one of us grandchildren or even anyone needs help, you know she will be there. If I can one day become half of the woman she is, I know I will be ok."
