"I really appreciated how much Torri helped other students while in my class. She helped students get their work in on time, kept them on task and motivated them to complete the materials. She was a good friend." – Mr. Fischer

"It is so much fun to see and have Torri in class. She is always concerned with what is happening around her, with friends and her environment. When it comes to helping with anything FFA related she is available all the time to give her time. We have had some great conversations on many topics. She is a great person to have in this school." – Mr. Boettcher
